Very little information was given by
the officers of the club as to the method
of disposing of the resolution, but it was
stated positively by President William H.
Page that the club would not withdraw
from the governing body in athletics. It
was learned that the resolution was presented, but in view of the fact that the
acts complained of had been inoperative
by the reinstatement of the club's swimmers, the presumption was that it was by the reinstatement of the club's swimmers, the presumption was that it was not pressed by Chairman Matthew P. Halpin. Mr. Page declined to say whether or not the proposition was put to a vote and other officers of the club were equally reticent, though all admitted that the incident was officially closed. The matter came up at the last meeting of the 1914 governors, as the polls were opened for the annual election of the club a few minutes after the meeting adjourned. There was no contest in the election, the members being extremely pleased with the administration of Willthe election, the members being extremely pleased with the administration of William II. LOOMIS IN FINE CONDITION.

Chicago Star Has Another Workout Preparatory to Millrose Meet.

Joe Loomis, the Western wonder, who asionished the experts by winning three national championships last year, had some more warming up spins in the Seventy-first Regiment Armory yesterday and now is considered in frim to make his first appearance in New York at the games first appearance in New York at the games of the Millrose A. This is the reason for the hopes of many of the local cracks that they will take his measure and get square in a way for the drubbing he handed them at Baltimore law York Athletic Club swimmers survived for the final heat of the 109 yard metropolitan championship swim after the trial heats held in the clubhouse tank last night. measure and get square in a way for the drubbing he handed them at Baltimore last September.

Jack Eller is confident that Loomis will have to make a new record to beat him in the hurdle race, and one point in favor of the New Yorker is that the Millrose count is over the high sticks, while Loomis won his title in the low hurdles. J. A. High and Fred Burns of the Boston A. A. also are considered to have chances from short marks in the hurdle. Eugene Jennings may have an advantage over Loomis in the high jump because of the take off being from a board floor. He is the national indoor champion and therefore is quite at home under the conditions. The jump has attracted a fine entry and six of the men are credited with having cleared over six feet. Lippincott, Lockwood and Eller are considered the most dangerous men Loomis will have to meet in the sprint.
